Species Election

The Examiner imposed a species election relating to the various diseases and conditions recited in the originally filed claims. Applicant submits that, except for elected claim 14, the presently elected claims are directed to compositions and are independent of any diseases or conditions. Nevertheless, to the extent a species election is required to examine the selected group of claims and to expedite prosecution of this application, Applicant herein selects adult nocturia as the disease or condition requested by the Examiner.

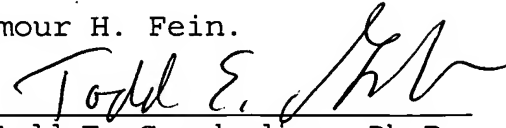

If the Examiner has any questions or feels that a discussion with Applicants' representative would expedite prosecution, the Examiner is invited and encouraged to contact Applicants' undersigned representative at the telephone number listed below.

Any fees or credits due with this response may be charged
